5.1.34.

My dear Givens,

A certain person named PETER LAURITS MANNICHE, a Dane, who is the Principal of the International Labour High School of Copenhagen, is, I understand, on his way to China, where he has arranged to give a series of lectures. This person may in himself be politically harmless, but there are grounds for believing that his opinions favour Communism, and it is known that the International Labour High School is definitely Communist in tone. As far as I am aware, Manniche was to leave Triest on the 10th November, and was due to arrive at Bombay on the 22nd of that month. He has been allowed to land in India on a written understanding that he would not give lectures in India, or indulge in political propaganda of any kind during his sojourn in that country.

It is believed that his intention is to leave India about December 26th, and I shall be grateful if you will make arrangements with the Chinese passport control authorities to give you warning if and when this man arrives in China.
